Mika is having a chat with Miko while waiting for her parents to pick her up.

Mika : Hi Miko, what do you think about the test today?

Miko : To me it's so hard. That's why I only got 60. What about yours?

Mika : Mine? I got 82, but still beyond my expectation. I have to make it better.

Miko : You got 82 and it's still not like you wish? What's your target?

Mika : Well, at least 92 for the four subjects as I want to continue to my dream school.

Miko : Wow, I wonder how I can get such a high score.

Mika : I'm sure you can if you try hard. First, you should do the exercises regularly.

Miko : Okay, but I'm not good at English. My English score is the lowest among others. Any suggestions?

Mika : Well, it cannot be mastered instantly as language is unique. It needs a skill to interpret it.

Miko : And how about the vocabularies? Sometimes I don't know the meaning of certain words.

Mika : That's why we have to practice and use our logic to get the meaning. Will you join me doing the English practice items?

Miko : I'd love to. When?

Mika : This afternoon in my house.

Miko : Deal. I will be there at 04.00 PM. Thank you for your support, Mika. See you.

Mika : See you

**The following text is for number 10 to 12.**

Once upon a time, there was a beautiful and kind-hearted princess named *Dayang Sumbi*. Her hobby was weaving cloth. One day her weaving tool fell. *Tumang*, a male dog, brought it back. As she had promised herself, she married him. They had one son named *Sangkuriang*. He didn't know that *Tumang* was his father because he was a dog whenever he was with him.

When *Sangkuriang* was twelve years old, *Sumbi* asked him to bring her a deer's heart. But after many days in the woods, he didn't succeed. Not wanting to disappoint his mother, he killed *Tumang*. He brought his heart home and gave it to his mother. *Sumbi* knew it was *Tumang's* heart, not a deer's. She hit his forehead with a piece of wood angrily. She told him to go away. Badly wounded, *Sangkuriang* left the village.

Years after, *Sangkuriang* went back to his village. There he met a beautiful woman who was actually *Sumbi*. Soon, he fell in love and proposed to her. When he got closer, she saw the bad scar on his forehead and realized that he was her own son, *Sangkuriang*. She told him the truth several times, but he didn't believe her. To turn him down, she smartly asked him to make her a lake and a boat in one night.

**It** was a small deal for *Sangkuriang* since he had genies to do the job before dawn. *Sumbi* got so worried that she asked the villagers to burn the woods in the East. They also made noises as if dawn was going to come soon. The genies left their work unfinished. Being cheated on, *Sangkuriang* was furious. He kicked the boat so hard that it went upside down. It gradually became a mountain. It is now known as Mount Tangkuban Perahu.

I have a number of watches in my collection, but my favorite watch is the one my father gave me on my thirteenth birthday. I had been longing for a unique watch for quite some time and my father finally granted my wish. It was honestly one of the finest presents I have ever received.

It is a wrist watch which is blue in color. It is powered by two lithium coin cell batteries. The dial is round with twelve markings. The base is black and it has the brand name embossed on it. The numbers in the dial are all fluorescent, so they emit green light at night.

The most attractive feature of it is its extraordinary strap which is really cool and trendy. The strap is not like that of any other ordinary watches. It does not have any holes or buckle to strap it. It can bend on its own when applied a little pressure. I need not worry about the durability of the strap as it is made of fine plastic. When I don't use the watch, I can just round the strap and keep it safely in my cupboard.

I cannot thank my father enough for such an amazing gift. It has taught me some important life lessons about how to use and manage my time wisely. It has made me more punctual and shaped me into a more responsible person.

#### *Glutinous Rice Balls in Ginger Syrup*

*Wedang ronde* is a traditional Indonesian drink to warm you up. It is best enjoyed in rainy seasons when the temperature dips.

#### **INGREDIENTS**

##### **For the Ginger Syrup**

500 ml water  
50 gram ginger, peeled and bruised  
2 lemongrass, bruised and knotted  
2 pandan leaves (optional), knotted  
flour  
75 gram sugar

##### **For the Peanut Filling**

50 gram roasted peanut  
25 gram palm sugar

##### **For the Rice Balls**

100 gram glutinous rice

80 - 100 ml water

#### **INSTRUCTIONS**

- **Ginger Syrup**

1. Combine all ingredients in a pot and bring to a boil. Reduce heat and simmer for 15 minutes.
2. Turn off the heat and strain to get a clear syrup. Divide into four serving bowls.

- **Peanut Filling**

1. Grind together peanut and sugar in a food processor. Set aside.

- **Rice Balls**

1. Place glutinous rice flour in a mixing bowl. Pour water gradually and knead with your hands until the dough come together into a play dough like consistency. Divide the dough into 20 portions.
2. Shape each portion into a disc, place roughly 1/2 teaspoon of peanut filling at the center. Seal it.
3. Then, gently roll the disc into a ball. Repeat for the rest of the dough. You need to cover the rice balls with a dampen towel to prevent them from losing moisture.
4. Bring a pot of water to boil. Gently drop the rice balls into the boiling water and cook until they float to the surface. Once they float for about 1 minute, remove with a slotted spoon and place into the serving bowls. Serve immediately.

My name is Jacob Dabulck. I am 12 years old and I go to Lakeland East Primary School. I have had bad days, but last Sunday was the worst one yet.

It all started with me falling out of bed and hitting my head on the floor. Once I got up off the floor, I saw my mischievous dog, Brownny, chewing on a strangely familiar piece of paper. It was my homework! Three laps of the house later, I finally got it back, all torn up. My lazy Sunday had all of a sudden turned into a crazy one. And it was just the start.

After the worst morning ever, I decided to eat breakfast. As I was starving, I put so much food on my plate that I accidentally dropped it on the kitchen floor. The scrambled eggs splattered all over the fridge and one of my pancakes flew up to the ceiling and didn't fall back down. It stuck there with the sticky syrup dripping down onto the floor. I had to clean up the mess for an hour straight.

Since my weekend was already ruined, I decided to go outside and lay on the grass, but after a few minutes, water started spurting up from the sprinkler heads. I got wet from head to toe. The cute girl next door saw everything and I was so ashamed! I spent the rest of the day sneezing and curling up in bed.

On Monday at school, my friend Matthew told me that he had accidentally misspelt my name on our last group project. He had spelt it 'Badluck' instead of 'Dalbuck'. He had mixed up the B and D and the L and U. Then, I realised that, maybe, it was the reason for all of my misfortune last Sunday.

Viruses constantly change through mutation. When a virus has one or more new mutations it is called a variant of the original virus. Currently, the Center for Disease Control and Prevention (CDC) of World Health Organization (WHO) have identified two new variants of the virus (SARS-CoV-2) that cause coronavirus disease 2019 (COVID-19) as variants of concern. They are Delta and Omicron variants. Meanwhile, the previous variants i.e. the Epsilon, Kappa and Lambda variants still continue to be monitored but are spreading at much lower levels in several countries.

Delta variant is nearly twice as contagious as earlier variants and causes more severe illness. The greatest risk of transmission is among unvaccinated people. People who are fully vaccinated can get re-infected and spread the virus to others. However, those vaccinated people spread COVID-19 for a shorter period than unvaccinated people do. While research suggests that COVID-19 vaccines are less effective against the Delta variant, the Pfizer-BioNTech, Moderna and Janssen/Johnson & Johnson vaccines still appear to provide protection against severe COVID-19.

On the other hand, Omicron variant might spread more easily than other variants, including Delta. But it is not clear if Omicron causes more severe disease. It is expected that people who are fully vaccinated likely can get re-infected and spread the virus to others. This variant also reduces the effectiveness of some antibody treatments. To strengthen protection against COVID-19 and circulating variants, the CDC recommends additional primary shots e.g. Sinovac and Astra Zeneca vaccines and booster shots e.g. Moderna and Pfizer vaccines.

### Building Artificial Intelligent Voice Assistants

Artificial intelligence (AI) in mobile applications is a big trend today and everyone wants to take a bite of this delicious pie and a voice assistant is just one way of doing it. Here are the strategies for building apps like Siri. You should know that making a copy is easy. The tough part is figuring out how your voice assistant is going to stand out among others.

**1. Choose the best platform**

When thinking about how to create your own virtual assistant, study the existing platforms. Today there are all kinds of different platforms and services for creating an AI personal assistant. So, make the list of all the features you need and study the existing platforms. Consider all ups and downs and choose the right one for your mobile application.

**2. Keep the end user in mind**

When developing a virtual assistant app, you should always think about the end users, who they are, how old they are, and what tasks they want your assistant to complete. With these questions in mind, develop the right voice tone, language, and tasks that your AI personal assistant apps can do to make the end user's life easier.

**3. Select useful features**

When making a feature list for voice assistant apps, remember this. To build AI assistant that works is better than a feature-packed assistant that doesn't perform one task perfectly. Choose the most necessary features and make your assistant perform them perfectly.

**4. Make an always-on interface**

For AI personal assistant app, an always-on interface saves time and limits unnecessary clicks. So the user can call a voice assistant any time without making any extra efforts.

**5. Give it personality**

In the end, it is the user who decides to continue to use your app or not, so the way to make them stay is to form a personal attachment to your app. Give your voice assistant a personality that your end users will like.

Abi	:	Nisa, congratulations for being chosen for <i>Pencak Silat</i> in Provincial Regional Sport Competition!
Nisa	:	Thank you.
Abi	:	When will it be?
Nisa	:	Next month, the second week of March. But ...
Abi	:	Why but ...?
Nisa	:	I'm still in two minds. The regional practice tests for all school in our city will be conducted that week as well. What should I do? By the way, you are also chosen, aren't you? Congrats!
Abi	:	Thanks. So, we both are up in the air now, aren't we? We have to take part in the event representing our school. In the mean time, we also have to do the tests. Those two things are important
Nisa	:	Yeah, you're right. We'd better ask our teacher about it. Do you mind?
Abi	:	Nope. Let's see Mr. Hendra. Hopefully he will give us the best solution.
Nisa	:	Yups. Let's go before this first break time ends.

**Thank You For Being A Friend**

**By: Andrew Gold**

Thank you for being a friend  
Traveled down a road and back again  
Your heart is true, you're a pal and a confidant

I'm not ashamed to say  
I hope it always will stay this way  
My hat is off, won't you stand up and take a bow

And if you threw a party  
Invited everyone you knew  
Well, you would see the biggest gift would be from me  
And the card attached would say

Thank you for being a friend  
Thank you for being a friend  
Thank you for being a friend  
Thank you for being a friend

If it's a car you lack  
I'd surely buy you a Cadillac  
Whatever you need, any time of the day or night

I'm not ashamed to say  
I hope it always will stay this way  
My hat is off, won't you stand up and take a bow

And when we both get older  
With walking canes and hair of grey  
Have no fear, even though it's hard to hear  
I will stand real close and say

Thank you for being a friend  
Thank you for being a friend  
...

39. The song talks about ....

- I. an everlasting fellowship
  - II. a best gift for a friend
  - III. a hope for a friend
  - IV. a true friendship
